## Education

Bachelor of Science in Electrical Engineering

University of California, Los Angeles | Class of 2021

## Experience

### Embedded Systems Engineer - ElectroTech

2021 - Present

- Designed microcontroller-based solutions for IoT
- Developed firmware for embedded systems using C

### Hardware Intern - CircuitLab

2020 - 2021

- Worked on PCB design and low-power circuits
- Tested and validated embedded prototypes

## Technical Skills

C, C++, Embedded Systems, PCB Design, FPGA, MATLAB

## Projects

### Smart Home Controller

Designed and developed an IoT home automation system using Raspberry Pi
